PROFILE

I am a freelance fullstack engineer from Berlin with more than 8 years of experience building and shipping mobile and web products for companies such as MediaMarktSaturn, On, Brack and Purelei. I design, build and release end to end: Flutter apps, TypeScript backends (NestJS), modern web frontends (SvelteKit, React) and the CI/CD pipelines around them. My current focus is on AI/LLM-powered products and multi-channel e-commerce platforms.

LANGUAGES

German (Native) English (C1) Arabic (B2)

EDUCATION

Computer Science (Informatik), B.Sc.

EXPERIENCE

Freelance Fullstack Engineer

Grip King

📅 01.05.2026 - Present

Task: Architecting and building a multi-channel tire & rim e-commerce platform for the German market.

Achievements:

- Designed and built the platform end-to-end: NestJS API, SvelteKit storefront, and admin dashboard in a pnpm monorepo.
- Modeled EU tire-label compliance (EU 2020/740/EPREL), DOT tracking, and ledger-based inventory.
- Implemented 15-minute stock reservations preventing oversell on eBay, Kleinanzeigen, and Tyre24/ALZURA.
- Integrated Billbee OMS (orders, stock, invoicing, DATEV), lexoffice, Stripe, and PayPal.
- Set up security-scanned CI/CD (Gitleaks, Semgrep, dependency audit) with auto-deployed staging on Hetzner.
- Spec-driven development with 23 ADRs and a full testing pyramid (Vitest, Playwright).

Freelance Mobile App Developer

Protofy GmbH & Co. KG

📅 01.12.2025 - 01.06.2026

Task: Developing the Purelei mobile e-commerce app with Shopify webview integration and native features.

Achievements:

- Developing the Purelei e-commerce app for iOS and Android.
- Integrated Shopify-based webview for a seamless shopping experience.
- Implemented Firebase Analytics, Crashlytics, Cloud Messaging, and Remote Config.
- Set up consent management with Usercentrics SDK.
- Configured dev/prod flavor builds with Firebase environments.
- Implemented state management architecture using Riverpod.

Freelance Mobile App Developer

Roodie Health GmbH

📅 01.10.2023 - 01.03.2024

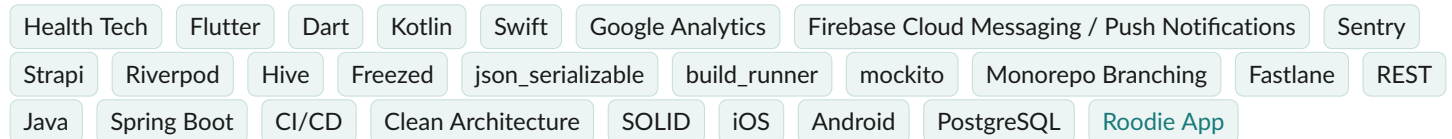

Personnel responsibility: 1 Developer

Task: Led the rewrite of the React Native app in Flutter and managed white label development.

Achievements:

- Rewrote the existing React Native App in Flutter.
- Led White Label Development for Roodie Health App.
- Implemented CI/CD Pipelines for development, deployment and testing.
- Provided technical consulting on best practices.

Technologies used:

Flutter Engineer / Backend Engineer

MediaMarktSaturn Technology GMBH

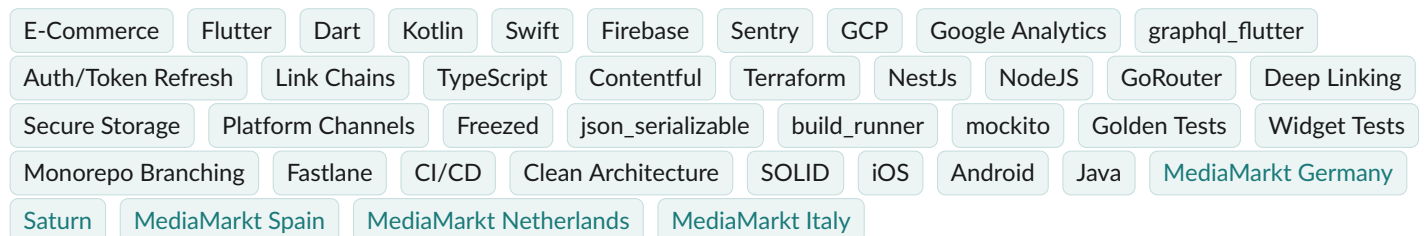

📅 15.09.2022 - 29.02.2024

Task: Developed new features and optimized CI/CD pipelines for MediaMarkt and Saturn apps, and improved omnichannel communication.

Achievements:

- Worked in a team of more than 30 individuals, including developers, UI/UX designers, product owners, and stakeholders.
- Implemented new features in the MediaMarkt and Saturn apps (Team Skittles).
- Optimized CI/CD pipelines and deployed apps to ensure seamless operations.
- Improved omnichannel communication for MediaMarkt and Saturn (Team Shiba Inu).
- Developed event-based push notification service.
- Implemented custom NFC plugin and forked payment plugin via Platform Channels (Swift/Kotlin).
- Delivered tech talks on Whitelabel App Development and Smart Push Notifications.

Technologies used:

Freelance Mobile App Developer

FRAMEGRABBER Medien GmbH

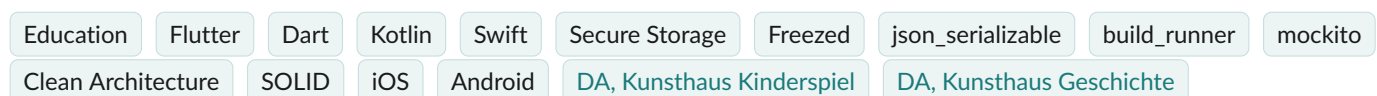

📅 01.10.2021 - 01.07.2022

Task: Developed two media guide apps and maintained close client communication.

Achievements:

- Implemented two media guide Apps: DA Kunsthaus Kinder Spiel and DA Kunsthaus Geschichte.
- Delivered 2 high-quality apps with regular client updates.

Technologies used:

Freelance Mobile App-/Web Developer

SNAPNEXT GMBH

📅 01.06.2020 - 01.09.2021

Personnel responsibility: 1 Developer

Task: Developed and maintained mobile and web applications for various clients.

Achievements:

- Developed and maintained apps such as Mein Orthomol, Orthomol - Virtuelle Apotheke, Mosaik, Tetrapak WEIHNACHTS-ORCHESTER, and EFFZEH 360.
- Maintained close communication with clients, providing regular updates and feedback.

Technologies used:

Freelance App Developer

TRIPPLE-A-CODE GMBH

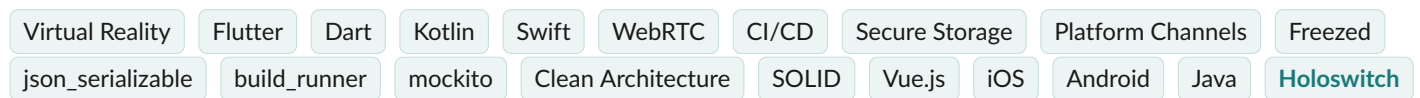

📅 15.01.2020 - 01.06.2020

Task: Led the development of the Holoswitch App and implemented custom WebRTC plugin.

Achievements:

- Spearheaded the development of the Holoswitch App.
- Implemented custom WebRTC Flutter plugin via Platform Channels (Swift/Kotlin).
- Ensured seamless communication between the app and VR-Hardware.
- Set up CI/CD Pipelines for development, testing and deployment.
- Delivered high-quality applications tailored to client needs.

Technologies used:

Team Lead / App Developer

PEQAS GMBH

📅 01.11.18 - 01.01.2020

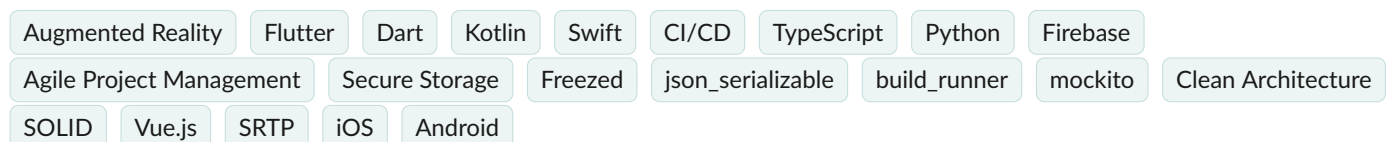

Personnel responsibility: 3 Junior Developers, 1 Designer

Task: Led the development of a cross-platform mobile application and managed CI/CD and AWS infrastructure.

Achievements:

- Led the development of a cross-platform mobile application from scratch.
- Set up environments, Travis CI/CD pipelines, and AWS servers.
- Organized and led weekly sprint meetings.
- Gained practical experience in team management and agile development.

Technologies used:

I PERSONAL PROJECTS

TessellAI

Personal Project

📅 12.2024 - 03.2026

- Built a real-time photo-mosaic platform for live events: guests upload photos via QR code and watch them assemble into mosaic art live on screen.
- Engineered a computer-vision pipeline (OpenCV, NumPy, Jonker-Volgenant linear-assignment solver) with incremental per-tile updates streamed over WebSockets + Redis Pub/Sub.
- Migrated the platform from AWS serverless (SST/TypeScript) to a FastAPI/Python monolith with Celery workers and typed OpenAPI client generation.

Technologies used:

Python FastAPI Celery Redis PostgreSQL React TypeScript PixiJS OpenCV WebSockets Docker Vercel

khal.it

Personal Project

📅 06.2026 - Present

- Designed and shipped a bilingual (DE/EN) portfolio and content platform with SvelteKit/Svelte 5, Tailwind v4, and Paraglide i18n.
- Built an SEO content engine: 21 keyword-researched articles with automated weekly republishing via GitHub Actions.
- Hardened the delivery pipeline: Gitleaks + Semgrep security scans, Lighthouse CI performance budgets, strict CSP; self-hosted on Hetzner with Docker/Caddy.

Technologies used:

SvelteKit Svelte 5 TypeScript Tailwind CSS i18n SEO Vitest Playwright Lighthouse CI Docker Caddy Hetzner

Norlin

Personal Project

📅 07.2026 - Present

- Building an AI-powered lead-outreach SaaS for marketing agencies: ad-funnel leads are engaged instantly by an AI conversation flow (Mirror, Qualify, Convert).
- Multi-tenant from day one: PostgreSQL row-level security via Prisma Client Extensions, queue-driven processing with BullMQ.
- Provider-agnostic LLM layer (Vercel AI SDK, Anthropic/OpenAI) with tool-calling; HubSpot OAuth and HMAC-verified webhooks; GDPR-by-design with EU data residency.

Technologies used:

AI/LLM NestJS SvelteKit TypeScript Prisma PostgreSQL RLS BullMQ Redis WebSockets HubSpot GDPR

I REFERENCES

"Wunderbare, professionelle Zusammenarbeit! K. hat den Grundstein für unsere gesamte mobile App Entwicklung gelegt. Sehr zu empfehlen!! " - **Andre Gröschel, TrippleACode GmbH**

"Professionelle, ergebnisorientierte, stets freundliche Zusammenarbeit. Ohne Einschränkung weiterzuempfehlen. Danke K.!" - **Timo Mugele, Framgrabber GmbH**

"K. hat uns mit klarer Kommunikation und vollem Einsatz überzeugt. Wir können die Zusammenarbeit mit ihm nur empfehlen " - **Tim Schröder, MassiveMiniTeam GmbH**

"Khalid has both, self-organization and autodidactic knowledge and abilities, thus he is stepping out, compared to regular flutter developers!" - **Max Arbeiter, SnapNext GmbH**

"Superschnell ins Teamsetting eingefügt, immer hands-on Mentalität und Lösungsfokus, für einige Bereiche FE-Lead beim Re-Build der App übernommen" - **Nina Tamerl, Roodie Health GmbH**

"K. was a very valued colleague in my department. He was very reliable and always happy to support others in the team." - **Andreas Partenhauser, MediaMarktSaturn Technology GmbH**
